

## Graduate Engineer

Headquartered in California with a state-of-the-art manufacturing facility in West Lothian, **Kaiam** is an emerging market leader in the research, development and manufacturing of optoelectronic equipment used within data-communication centers.

Founded by leading technologists from the optical networking industry, the team has a track record of delivering breakthrough approaches that change the rules of the marketplace.

Our Graduate Engineer Position is the beginning of your professional career. Under the guidance of senior colleagues you will develop your engineering competencies with hands-on project work. We are looking for individuals who have what it takes to be the best and demonstrate the behaviours we consider important to succeed such as, a professional and flexible attitude to work, an ability to learn, take responsibility and a desire to succeed.

We are seeking people from a wide range of engineering roles and so we would like to hear from you whatever engineering, technology or scientific discipline you are from. Successful candidates will join us in **Systems and Software, Hardware, Electrical, Test, Mechanical or Research & Development.**

We are recruiting the brightest and finest graduates to join our expert teams — Typically you will have, or be expecting, a 2:1 degree or better.

Working for **Kaiam** means you will have a key role to play and will quickly be able to make a valued contribution to our company's performance. This is an excellent opportunity to join a company at the forefront of technology where your contribution make's a direct impact to our business.

If you feel you can successfully fulfil this role pattern please apply by sending your CV and cover letter to: [recruitment\\_uk@kaiamcorp.com](mailto:recruitment_uk@kaiamcorp.com)
