

Graduate Software Engineer

Headquartered in California with a state-of-the-art manufacturing facility in West Lothian, **Kaiam** is an emerging market leader in the research, development and manufacturing of optoelectronic equipment used within data-communication centers.

Founded by leading technologists from the optical networking industry, the team has a track record of delivering breakthrough approaches that change the rules of the marketplace.

Our Graduate Software Engineer position is the beginning of your professional career. Under the guidance of senior colleagues you will develop your engineering competencies with hands-on project work. We are looking for individuals who have what it takes to be the best and demonstrate the behaviors we consider important to succeed such as, a professional and flexible attitude to work, an ability to learn and take responsibility and a desire to succeed.

Working within the Engineering department you will design, develop, troubleshoot and debug software programs for tools and equipment designed for test and manufacture. Developing software and tools in support of data analysis and quality control you will also be required to provide ad hoc support to other departments.

We are recruiting the brightest and finest graduates to join our expert teams — Typically you will have, or be expecting, a 2:1 degree or better in Computer Science, Computer Engineering and Electrical Engineering.

You will have a solid understanding of computer science fundamentals and software engineering and an aptitude for learning new technologies, demonstrating knowledge of programming and scripting languages; Python, C++. Some knowledge of MATLAB, LabVIEW .NET, HTML, MySQL would be advantageous.

Working for **Kaiam** means you will have a key role to play and will quickly be able to make a valued contribution to our company's performance. This is an excellent opportunity to join a company at the forefront of technology where your contribution make's a direct impact to our business.

If you feel you can successfully fulfil this role pattern please apply by sending your CV and cover letter to: recruitment_uk@kaiamcorp.com
